For the grown-up: one page a day, about 5 to 10 minutes, is plenty. Read the instructions aloud. **See** pages are worked examples to talk through, **Do** pages are practice, the **Check** page shows what has stuck. Keep counters or buttons nearby, and praise careful work, not speed.

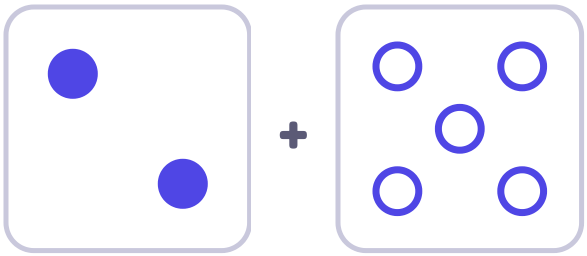

SEE Put the groups together

Adding means putting groups together. Count the first group, then keep counting into the second.

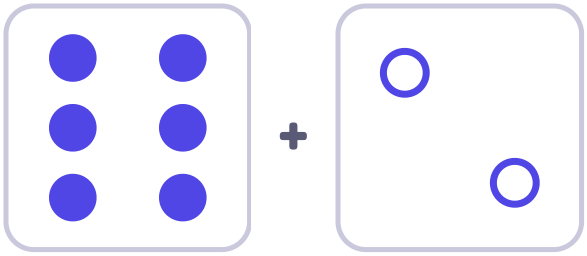

Tip: Counting on: start from 4, not from 1. Four... five, six, seven.

4 + 3 = 7

2 + 5 = 7

6 + 2 = 8
