Number cards 0 to 20 with ten frames

4 pages · Numbers 0–20

Name: _____ Date: _____

1 MAKE 2 MAKE 3 MAKE 4 MAKE

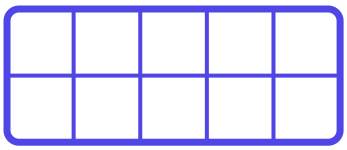

For the grown-up: one page a day, about 5 to 10 minutes, is plenty. Read the instructions aloud. **See** pages are worked examples to talk through, **Do** pages are practice, the **Check** page shows what has stuck. Keep counters or buttons nearby, and praise careful work, not speed.

MAKE Number cards 0 to 5

✂ Cut along the dashed lines. Print on card, or glue onto cereal-box card.

PLAY Games to play with the number cards

Five minutes is enough. Pick one game, play it a few days in a row, then switch.

Line them up
Mix the cards and put them in order from 0 to 20. Then take one out while your child closes their eyes: which one is missing?

Make 10
Use the cards 0 to 10. Find two cards that make 10 together, like 6 and 4.

Memory pairs
Print two sets. Turn them face down and find the matching pairs.

Bigger wins
Each player turns over a card. The bigger number wins both. Check with the ten frames when you are not sure.

One more, one less
Turn over a card. Say the number that is one more and one less, then find those cards.

Quick look
Cover the numeral with your thumb and show only the ten frame for a second. How many?

Have fun!
