For the grown-up: one page a day, about 5 to 10 minutes, is plenty. Read the instructions aloud. **See** pages are worked examples to talk through, **Do** pages are practice, the **Check** page shows what has stuck. Keep counters or buttons nearby, and praise careful work, not speed.

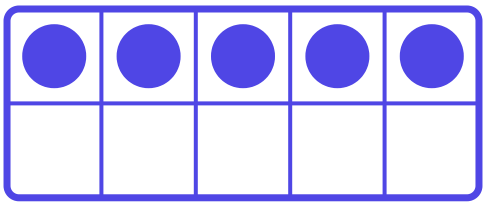

SEE How a ten frame works

A ten frame has two rows of five. The top row fills first, from left to right. A full top row is always 5.

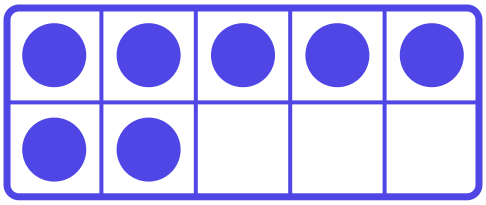

Tip: Ask: is the top row full? How many in the bottom row? How many empty boxes?

Name: _____

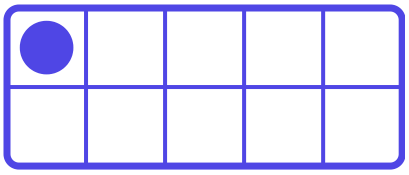

DO

Count to 10

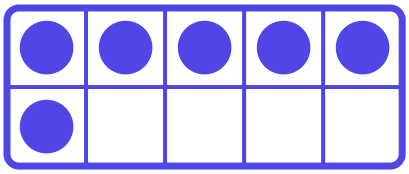

Use the full row of five. Write how many counters.

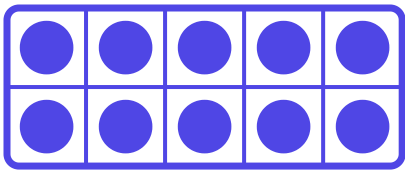

Tip: Seven is a full row of five and two more. No need to count the top row again.

KEY Answer key

Check each page together while it is fresh. A wrong answer is a clue: go back to the picture (dots, ten frame, number line) and try again.

Next step: if the Check page went well on two different days, move on to the next pack. If not, repeat the Do pages with real counters first. More free packs and online games: dyscalculia.io/dyscalculia-worksheets
